

How to Complete the Nursing Advising Checklist: A Guide for Students and Staff

The advising checklist is a requirement for application, to ensure students are aware of all program application, processes, and completion requirements. Students must complete and submit an advising checklist for each program they intend to apply to by the application deadline. Updated checklists are available on Germanna's Health Science Programs webpage: [Health Science Program Checklists - Google Docs](#)

Documents are fillable PDFs and work best when downloaded from Google Docs.

Once downloaded, open the file and "Save As" keeping the original document name and adding the student's first initial, last name, and student ID number.
